# EXPLORE MASS TIMBER

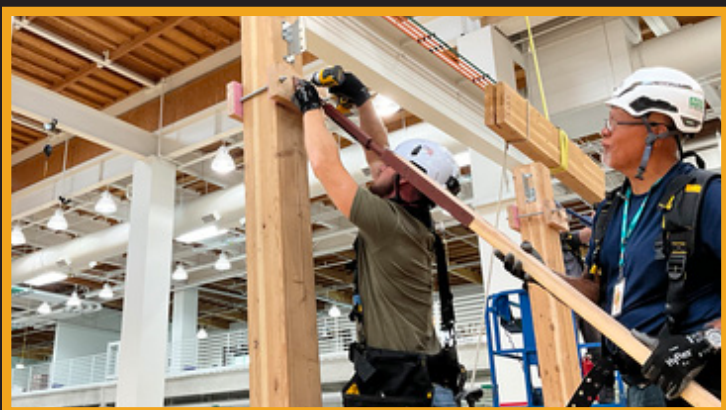

THE FUTURE OF CONSTRUCTION

## Why Mass Timber?

- Lighter than concrete but highly durable
- Lower burn rate, enhancing fire safety
- Cost-efficient for large-scale projects
- Environmentally friendly with a reduced carbon footprint

## JOIN US

**Get experience with Mass Timber** - engineered wood panels known for their strength and stability. Our in-depth workshop gives you hands-on experience and covers essential skills to master this emerging building material.

**FREE** for Members of the Hawaii Regional Council of Carpenters & Signatory Contractors!
